

Genmega GT5000 ATM

Genmega GT5000 ATM

A high performance yet economical **Through-The-Wall ATM** solution with the look and feel of a full bank ATM. Designed for wall or Kiosk installation, The **GT5000** series makes new TTW installation or replacements a snap. Built with the same compact modular components as your existing Genmega machines and engineered for easy installation and reliable operation.

The **GT5000** includes high-end features like a 15" High Bright LCD which support custom advertisements and a 3-cassette cash dispenser with motorized cash presenter. A new Touch-Screen rear-service panel allows convenient and safe access for ATM Operator and Service personal.

The **GT5000** series ATM is ADA compliant and Chip Card(EMV) ready, including a PCI/Interac certified encrypting PIN pad (EPP), a voice guidance system, and lighted action indicators (including lighted keypad).

Features of a high end **Through-The-Wall ATM** with the low maintenance and reliability that Genmega delivers makes this an excellent TTW solution.

Genmega GT2500 ATM

Genmega G2500 series ATM

Designed for retail and off-premise locations, the G2500 comes loaded with all the features you expect, and also provides additional hardware configuration choices allowing you to custom fit each machine to the needs of your customer or location.

The G2500 comes standard with an **8" high-resolution wide-screen LCD**, which can be upgraded to a **10.2" touch screen**. The receipt printer can also be upgraded to a 3" graphics-capable for custom branding or coupons. The integrated topper can also be paired with a selection of energy-efficient LED toppers to add visual impact and attract customers.

In addition to the fixed, removable and multi cash cassette dispenser options offered by Genmega, the G2500 can also support cash dispensers from other equipment suppliers, providing more flexibility and upgrade options for existing deployments.

Genmega GT3000 ATM

Genmega GT3000 series through-the-wall ATM.

Designed and intended as a true through-the-wall machine, the GT3000 retains all the features and options of a retail floor model ATM in a small, compact weather resistant chassis, perfect for tight spaces, Kiosks or anywhere location space is valuable.

The **GT3000** uses a 7" high-resolution wide-screen LCD, 2" receipt printer and can be ordered with a fixed cassette or rear-load removable cassette dispenser.

There is also an optional Rear service-panel to provide secure loading and management functions.

While the small footprint TTW chassis is all new, the **GT3000** serial ATM uses existing Genmega components, so service and maintenance remain easy and familiar.

The **GT3000** provides an economical through-the-wall solution.

Genmega GT1900 ATM

Genmega G1900 series retail ATM

Designed and engineered to meet the needs of the highly competitive retail ATM market, this innovative machine combines all the features you expect, built on a flexible platform allowing you to custom fit each machine to its location and traffic volume.

Packed with features like a 8" high-resolution LCD screen, ready for your custom advertisements and a reliable dual-head swipe card reader (upgradable to DIP and EMV). The G1900 Series vault has been reinforced along the door edge, and a flashing security LED added to help prevent physical attacks.

In addition to the dispensing options offered by Genmega, including drawer, cassette, and multi-cassette devices, the Genmega G1900 series supports several other popular dispenser models including the De La Rue SDD© and the Puloon LCDM1000© providing an economical upgrade for existing machines.

Genmega GT6000 ATM

Genmega GT6000 ATM

Genmega understands that maximizing revenue and delivering your self-service solution in a reliable and customer friendly form is critical to your business. Combining traditional ATM functionality along with the power to drive an array of components and devices, Genmega has engineered and designed the all new G6000 ATM-Kiosk with your self-service solution in mind.

The matching Side-Car component chassis allows easy integration of devices and components needed to bring your unique solution into reality. The Genmega G6000 ATM includes high-end features including a 15" touch screen LCD, eye catching modern design and host of hardware options driven by a Microsoft Windows™ operating environment for maximum flexibility.

Genmega GK1000 ATM

Genmega presents the GK1000

Anon-cash dispensing transactional kiosk, designed to deliver your self-service solution in an economical yet feature-rich and user friendly platform.

The GK1000 is built on a UL291 business-hours vault can be configured with an array of self-service solution devices including Ticket Printer, Bill Acceptor(s) and Card Dispensing modules.

The small footprint design of the Genmega GK1000 is packed with other high-end features like a 15" touch-screen LCD panel and uses a Windows XP™ operating environment, allowing maximum flexibility for solution design.

Hyosung 1800 ATM

Hyosung ATMs

NH-1800 NAUTILUS HYOSUNG

NH 1800 is a successor model for NH-1500 with number of changes mode. NH-1800 provides the same kind of stability and reliability as NH-1500 plus better specs for more customer options.

NH-1800, a product of Nautilus Hyosung's ATM technology acquired from years of experience in the retail industry, is engineered to provide outstanding reliability at an affordable price.
